

Nationwide radio advertising

Sanoma sells nationwide radio advertising to eight radio stations. Radio Suomipop, Radio Rock, Easy Hits, Loop, HitMix, Aito Iskelmä, Groove and Classic Hits.

Ready-to-use packages (Total Audio, Radio)

The advertiser chooses the number of contacts in the target group 25-54, the time of the campaign, and the spot lengths. The package includes predefined station weightings based on natural listening. Different weightings can be made to the packages according to weeks and spot lengths. For an additional fee, you can emphasize the desired program blocks and make restrictions on the days of the week and program blocks. In addition to radio stations, the Total Audio package includes Sanoma's Audio Network.

Customizable packages (Total Audio flexible, Radio flexible)

The advertiser chooses the target group, number of contacts, campaign time, spot lengths and radio channels (1-8 pcs). Different weightings can be made to the packages according to weeks and spot lengths. For an additional fee, you can focus on the desired program blocks and make restrictions on the days of the week and program blocks. In addition to radio stations, the Total Audio flexible package includes Sanoma's Audio Network.

Sanoma Audio Network

Advertising targeted at Supla and Sanoma's other digital audio is an effective way to reach the audience that consumes audio. Sanoma Audio Network is sold as impression-based audio advertising either pre-, mid-, or post-roll.

Nationwide radio advertising

Sanoma sells nationwide radio advertising to eight radio stations. Radio Suomipop, Radio Rock, Easy Hits, Loop, HitMix, Aito Iskelmä, Groove and Classic Hits.

Station-specific spot price (Audioplanner)

All eight of our radio stations can be purchased alone or in various combinations at channel-specific spot prices, as a so-called fixed block purchase with the planning program Audioplanner. In this case, the advertisements are shown in programme blocks agreed on according to each channel's own schedule. The blocks are three hours long, except for the night block, which is six hours long. The price of each block is determined by the number of listeners and capacity. There is no minimum purchase amount in block buying, and there are no restrictions on the length of the campaign. In block buying, you can specify the desired location in the block and outage for a 20% surcharge. There is an additional fee of 10% for the activation component.

Spot-priced station package (Audioplanner)

Sanoma Media Finland's radio advertising can be purchased from Audioplanner with the help of ready-made station packages. The nationwide package is Sanoma Media Total. The ready-made packages have the same schedules, number of performances and spots on all stations.
